

Day – 29

Task – Model Evaluation and Data Pipeline.

Day - Tuesday

Date – 28th April 2026

Time – 7:00 AM – 10:00 AM

Dataset – Iris_Flower_Dataset.

Source – The dataset was downloaded from Kaggle.

Why this dataset - I chose this dataset because it is clean, has very few or no missing and duplicate values, and its features are easy to use for classification and improving models.

- Downloaded the dataset and imported into **Jupyter lite** for cleaning.
- The dataset has **150 rows** and **05 columns**.
- Imported necessary libraries and dataset using **function**.
- Performed basic operations to get data insights using function.
- Handles missing values.
- Dropped Duplicates.
- Performed decision tree and printed accuracy.
- Performed decision tree tuning
- Performed random forest model.
- Saved clean dataset.
